EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Howard Richman on 14 March 2007.

The application has been amended as follows:

Claim 25 has been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The specific limitation(s) of "...oscillating product...mobile arm ...motion conversion device; gear assembly..." are not anticipated or made obvious by the prior art of record in the examiner's opinion. For example, Wood et al. teach a non-motorized object hanger. Asbach teaches an infant support with entertainment device. Hoffman teaches a spinnable swing assembly. Myers teaches a toy bar for bouncer seat. Gebhard teaches a pendulum swing. Thornton teaches an oscillation operated elevatable swing. However, the prior art fails to teach "...oscillating product...mobile arm ...motion conversion device; gear assembly..."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
